Clean energy goals can be the perfect ground for cooperation in a fragmented world at WEF 2023

New Delhi, Dec 27 (IANS) Global leaders will soon converge at Davos, the popular Swiss ski resort, to discuss geo-politics, economics and development at the World Economic Forum's (WEF) flagship annual event, buffeted by growing climate concerns. Under the theme 'Cooperation in a Fragmented World', the Annual Meeting 2023 will bring together more than 2,500 leaders from government, business and civil society at a pivotal time for the world.

Entering 5th year with a new vision and ambition: realme India

New Delhi, Dec 27 (IANS) The year 2022 has been an eventful year for India's smartphone industry, and a phenomenal year for realme as it achieved various milestones in India and other global markets, the company said on Tuesday. The brand's efforts to bring leap-forward technologies to the youth and various initiatives to connect with the local cultures and the youth was recognised by the people and various experts alike which led to the recognition as the most trusted technology brand this year by the IDC.

Davos 2023 will provide an important platform to drive forward-looking solutions and address the most pressing global challenges through public-private cooperation. According to Louis Kuijs, Asia-Pacific Chief Economist at S&P Global Ratings, "Discretionary interference, erection of trade and investment barriers and attempts to decouple from certain economies will obviously contain growth of productivity and living standards. Also, fragmentation of the global economy will impede the green transition." India, which figured amongst the top 10 high performers in the Climate Change Performance Index in 2020, has taken several initiatives, including setting up of the International Solar Alliance (ISA), for raising the domestic renewable energy target to 450 GW by 2030, putting in place an ambitious National Hydrogen Mission and continuing efforts to decouple its emissions from economic growth. The country has achieved the remarkable feat of connecting nearly all households to electricity while also creating one of the world's largest markets for renewable energy. "Pursuing economic growth in line with the vision of becoming a net-zero emitter by 2070, hydrocarbon-rich countries (HRCs) could turn this challenge into an opportunity by taking advantage of their hydrocarbon resources, geographic locations, access to abundant renewable energy, and highly developed infrastructure to develop and export clean hydrogen, defined as hydrogen produced with very low or zero carbon emissions, and its derivatives, including clean fuels," says Dr. Prateek Kanakia, Chairman & Founder, TheGreenBillions Ltd., a company specialising in aggregating sustainable solutions to tackle climate change.

Credit offtake in elevated levels: CARE Ratings

Chennai, Dec 27 (IANS) The credit offtake in India remained at elevated levels of 17.5 per cent year-on-year (YoY), reporting robust growth for the fortnight ended December 2, said credit rating agency CARE Ratings. According to CARE Ratings report, the growth is driven by a low base, non-banking finance companies (NBFC), retail credit, higher working capital demand driven by inflation and improvement in capacity utilisation ratio, and rising demand for fresh capex. The benefit of a lower base is expected to ease in the next few fortnights, optically leading to lower growth rates, CARE Ratings said.

December 2. The credit offtake expanded by over 1,000 bps due to a low base, retail credit, inflation-led working capital requirement and MSMEs. It also increased sequentially by 1.2 per cent from the immediate fortnight (ended November 18), CARE Ratings said. Deposits rates are expected to go up further due to rising policy rates driven by higher inflation, intense competition between banks for sourcing deposits to meet strong credit demand, widening credit deposit gap, and lower liquidity in the market, said CARE Ratings. Over the last couple

of years, (i.e., from February 28, 2020) credit offtake has mostly overcome the Covid induced lag and has grown by around 29.7 per cent to almost catch up with deposit growth of 31.4 per cent over the period, the credit rating agency said. In absolute terms, credit outstanding stood at Rs 131 lakh crore as of December 2, rising by Rs 19.5 lakh crore over the last 12 months. According to CARE Ratings, the credit offtake is anticipated to remain resilient in FY23, while the benefit of lower base will ease out in the next few fortnights, optically leading to lower growth rates. A slowdown in global growth due to elevated interest rates, interminable pandemic restrictions in China, and multiple rate hikes in India could impact credit growth, the CARE Ratings report said. -IANS

Business Brief III

Jet Airways crew, management members leave owing to lack of clarity over relaunch

New Delhi, Dec 27 (IANS) As lack of clarity prevails over relaunch of Jet Airways, many of its pilots and senior executives are said to have left, according to media reports. Top executives who have reportedly left include human resources and engineers departments heads, reports added, quoting sources. As per reports, Jet Airways vice president (inflight services) Mark Turner has been sent on leave without pay. Jet Airways in November had temporarily cut salaries of a section of staff and also sent many on leave without pay, reports said further, quoting sources. All these developments have taken place after the Jalan-Kalrock consortium told the National Company Law Appellate Tribunal (NCLAT) last month that paying additionally for clearing staff provident fund and gratuity dues worth more than Rs 200 crore, wasn't part of its original resolution plan, which was cleared by the NCLT in 2021.

Over 829 mn cyber attacks blocked in Q4: Report

New Delhi, Dec 27 (IANS) More than 829 million cyber attacks were blocked during the fourth quarter (Q4) of 2022, globally, of which 59 per cent of the websites were in India. According to the application security company Indusface, the report mentioned a sharp rise in the intensity and frequency of DDoS and Bot attacks in Q4 compared to Q3. "In this quarter, we saw almost 20 applications of a healthcare customer get targeted by DDoS attacks. We also saw a SaaS application hit with a 2TB attack. In both cases, the attacks were quickly thwarted with AI sending out anomaly alerts and a managed services team deploying surgical rules," said Ashish Tandon Founder and CEO, Indusface. The report says that mid-market companies with revenues between \$10 million to \$1 billion have been subjected to 45 per cent of the cyberattacks, and only 21 per cent were large enterprises with over \$1 billion in revenue.

Ola, Uber, Dunzo worst platforms in providing fair work for gig workers

New Delhi, Dec 27 (IANS) When it comes to fair work for gig workers among the digital platform economy in India, Ola, Uber and quick-grocery delivery provider Dunzo are the worst performers across parameters related to the working conditions of gig workers, a report showed on Tuesday. Across 12 digital labour platforms -- Amazon Flex, Bigbasket, Dunzo, Flipkart, Ola, PharmEasy, Porter, Swiggy, Uber, Urban Company, Zepto and Zomato --

no platform scored more than seven out of the maximum of 10 points, and none scored all the first points across the five principles (fair pay, fair conditions, fair contracts, fair management and fair representation) for gig workers, according to the 'Fairwork India Ratings 2022 Report'. Other platforms who scored zero in the report were Amazon Flex and PharmEasy, while Porter scores just 1 point out

of 10. Professor Balaji Parthasarathy, one of the principal investigators of the team, told IANS that these findings are alarming for all stakeholders -- government, consumers and platform owners -- and they should come together to help gig workers get the best working conditions. "We would like the government and other stakeholders like consumers and digital labour platform owners to take note of these findings and ensure a better work environment for millions of gig workers in 2023," Parthasarathy said. The Fairwork India team was spearheaded by the Centre for IT and Public Policy (CITAPP), International Institute of Information Technology Bangalore (IIIT-B), in association with Oxford University in the UK.
