Razorpay Launches Vulcan, India's First AI Payments Foundation Model

Bangalore, India's digital payments story has been one of growth and innovation - yet a quieter gap remains: a payment that doesn't go through, an OTP that arrives late, a subscription that silently lapses, a card compromised by fraud. For millions of first-time or small-town shoppers, one such experience is often enough to send them back to cash.

Today, Razorpay, India's Omnichannel Payments Platform for Businesses, announced the launch of the Razorpay Vulcan, India's First Transformer-based AI Foundation Model built for payments, designed to make every digital payment in India more reliable, safer, and predictable. Built with NVIDIA and AWS technology, it combines Razorpay's payments data powered by NVIDIA's accelerated computing and AWS's cloud infra-

structure - groundwork that India's e-commerce market needs as it heads toward a projected \$350 bn by 2030. Harshil Mathur, CEO & Founder of Razorpay, said, "India's appetite for digital payments is real, but it isn't universal yet - for a large part of the country, going digital still comes down to one thing: does it work, every single time? That's the customer we built this for: the one still deciding whether to trust a screen over cash in hand. An AI-led payments foundation model doesn't just solve today's problem and stop there. Every payment teaches the system something that makes the next payment better."

Pahal Patangia, Head of Global Industry Business Development and Payments, NVIDIA said, "India's rapidly evolving digital economy is creating an oppor-

tunity to make payments more intelligent, reliable, and secure. NVIDIA's work with Razorpay in partnership with AWS on AI payments foundation models has opened up a new frontier, turning complex payments data into real-time contextual intelligence."

Kiran Jagannath, Head of FSI and Conglomerates, AWS India and South Asia, said, "Razorpay is reimagining payments intelligence at India scale with an AI Foundation Model - built on Amazon SageMaker - that consolidates billions of transaction insights into a single, continuously learning intelligence layer, replacing fragmented ML models with unified AI that delivers higher payment success rates, rapid iteration, and enterprise-grade security for mission-critical payment flows."

IMTMA to organise Pune Machine Tool Expo (PMTX) & Factory Equipment Expo (FACTEQ) 2026 at Pune

Ahmedabad, 18 August 2026: Indian Machine Tool Manufacturers' Association (IMTMA) will organise Pune Machine Tool Expo (PMTX) 2026, co-located with Factory Equipment Expo (FACTEQ) 2026 from 7 to 10 September 2026 at the Pune International Exhibition & Convention Centre (PIECC), Moshi, Pune. The announcement was made at a press conference held today in Ahmedabad.

PMTX is a premier B2B exhibition that showcases advanced machine tools, manufacturing technologies, factory automation, and precision engineering solutions. FACTEQ is an exclusive exhibition on factory equipment focusing on products and solutions to meet the requirements of new factories and those that necessitate upgrading existing facilities.

Over 175 exhibitors will display machine tools, metal cutting, metal forming, tooling, automation, robotics,

metrology, and digital manufacturing technologies. Factory equipment, material handling, industrial infrastructure, energy-efficient systems, and smart factory solutions will also be showcased.

Business visitors from various industry segments such as automotive, aerospace, general and heavy engineering, capital goods, and many other sectors are expected to visit. Pune is one of India's most important manufacturing and engineering centres. The expo is designed to provide the machine tool and manufacturing industry with a platform to evaluate

solutions, interact with experts, and experience machines and factory systems LIVE.

The expo will help visitors to get acquainted with the production technologies and factory infrastructure solutions.

According to Mr. Jibak Dasgupta, Director General & CEO - IMTMA, "Manufacturers today want to see technology performs providing end-to-end solutions, not just machines. Live machine demonstrations, service propositions, and direct engagement with technology providers will enable faster and more informed investment decisions."

Hexaware Helps Enterprises Achieve Infinite Momentum by Removing Friction Across the Estate

Mumbai, Hexaware Technologies, a global provider of IT solutions and services, today introduced the Zero Friction Enterprise, a delivery framework designed to address the operational and technological resistance that slows performance across the enterprise estate. Friction often builds where it is difficult to see early: in aging code, security exposure, delayed delivery, operational noise, late-surfacing defects, and software dependency.

Business Brief

JIO REINTRODUCES JIO PRIME WITH 1-YEAR PRICE GUARANTEE

Mumbai, Jio Prime Membership Programme was originally created as an act of gratitude to Jio's first 100 million customers. Today, it is reintroduced to provide assurance of price guarantee and a range of additional benefits, for Jio's family of over 500 million users.

Jio Prime enables additional price certainty for future so that customers can continue re-charging with confidence, their preferred eligible Jio plans at today's prices, irrespective of any future price revisions during the price-guarantee period, for one-year until 5 September 2027.

Care Health Insurance Issues Public Health Advisory on Mosquito-Borne Diseases

Mumbai, With monsoon increasing the risk of mosquito-borne diseases such as dengue, malaria, and chikungunya, Care Health Insurance has issued a public health advisory urging citizens to stay vigilant, adopt preventive measures and seek timely medical attention. While these diseases are largely preventable, they pose a recurring public health challenge during the monsoon, often resulting in serious illness and unplanned medical expenses.

As India enters the peak monsoon season, public health authorities have intensified preparedness measures to minimise the impact of seasonal outbreaks. According to the Ministry of Health and Family Welfare, all States and Union Territories have been advised to strengthen disease surveillance, vector control, community awareness, and healthcare preparedness. Under the same scenario, hospitals devise means to ensure adequate availability of beds, medicines, diagnostics, blood components, and trained healthcare personnel to effectively manage any surge in cases that may arise.

Maruti's 'FRONX' becomes fastest Indian SUV to hit 2 lakh exports

New Delhi, Aug 18 (ANS) Leading automobile firm Maruti Suzuki India Limited on Tuesday said that its popular SUV -- FRONX -- has crossed the milestone of 2 lakh exports in under 38 months, becoming the fastest SUV from India to achieve this feat. Exports of the Made-in-India FRONX began in June 2023 and the model achieved its first lakh exports in under 25 months before adding the second lakh in about 13 months, the company said in a statement.

Manufactured at Maruti Suzuki's Hansalpur facility in Gujarat, FRONX is being exported to nearly 90 countries, including Japan, the statement added. "Every vehicle exported by Maruti Suzuki carries the hard work and pride of our people. These vehicles take a piece of Indian manufacturing to nearly 120 countries. FRONX has been a key contributor to Maruti Suzuki's success in exports. Since FY 24-25, it has been India's No. 1 exported passenger vehicle," Hisashi Takeuchi, Managing Director & CEO, Maruti Suzuki India Limited, said. "After crossing the milestone of 1 lakh exports in record time, FRONX reached its second lakh significantly faster, underlining its growing demand in the international markets," Takeuchi said. He added that Maruti Suzuki continues to showcase the prowess of India's manufacturing ecosystem aligned with 'Make in India, Make for the World'.

NRAI's 5th Food Delivery Summit Highlights Gujarat as a New Growth Hub for India's Restaurant Industry

Ahmedabad, 18 August 2026: Ahead of the 5th NRAI Food Delivery Summit 2026, India's biggest food business summit, the National Restaurant Association of India (NRAI) today highlighted Gujarat as an increasingly important market for India's restaurant and food services industry, with growth extending across Ahmedabad, Vadodara, Surat and Rajkot and new opportunities emerging around GIFT City. The observations were shared at a press conference in Ahmedabad ahead of the summit, which will be held on 20 August.

Gujarat's restaurant landscape has developed well beyond its traditional food culture. Ahmedabad alone has more than 20,000 restaurants, including cafés and QSRs, with the city's restaurant sector estimated to be growing at 10–12% annually. Across Ahmedabad, Vadodara, Surat and Rajkot, NRAI has 500+ members, reflecting the breadth of the state's restaurant ecosystem like The Secret Kitchen, Gopi Dining Hall, Old School Eatery, 22nd Parallel and Jagdish Foods to brands such as La Pino'z and Baskin-Robbins amongst many other leading F&B Brands. The market is seeing growing acceptance of premium dining, international cuisines, cafés, QSRs and experience-led formats, while businesses originating in Gujarat are increasingly building a presence beyond the state with the potential to scale across India and international markets.

SEMICON India 2026 in Delhi to Accelerate India's Semiconductor Ecosystem

New Delhi, August 18, 2026: The fifth edition of SEMICON India 2026 will be held from September 17–19 at Yashobhooni, New Delhi, and will be inaugurated by Hon'ble Prime Minister Narendra Modi. The event will bring together global semiconductor leaders, policymakers, industry experts, startups, and academia on a single platform. India's semiconductor sector is gaining strong momentum under the India Semiconductor Mission (ISM), with 12 projects approved under Semicon 1.0.

The announcement of Semicon 2.0 is set to further strengthen a robust and resilient ecosystem in the country. The government continues to support innovation and design through initiatives for academic institutions and startups. Shri S. Krishnan, Secretary, MeitY, said, "The success of the Semicon India Programme and the launch of Semicon 2.0 reflect India's strong commitment to this sector. These initiatives will help position India as a global semiconductor hub."

Mr. Ashok Chandak (?????), President, SEMI India & IESA, added, "SEMICON India has become a key platform for collaboration and partnerships across the industry. The 'Silicon to Systems' theme highlights India's growing capabilities across the semiconductor value chain." Visitor registration is now open at: <https://portal.semiconindia.org/register>
